

SPECIFICATION 2:

In an insurance Application users can apply for different types of insurance policies, when a user selects TYPE A insurance, the system (project) asks for the age of that user. The age value should be greater than 16 years and should be less than 80 years.

Prepare Test scenarios

Test scenario 1:

-->verify Type A policy selection

Test scenario 2:

-->verify focus to age when user selects Type A

Test scenario 3:

-->verify "Age" value
